

Lunavit®

Get energy

Experience beauty

## Positive energy is created by trust and control.

So that you can always be sure to get the best and purest quality, the international and renowned company SGS.com is in charge to check our raw materials before processing. Knowing this, we guarantee e.g. that the processed germanium stones have a purity of at least 99.996% and the used magnets have a strenght of at least 0.2 Tesla.

Enjoy the timeless exclusive Lunavit Bracelet or Necklace and you will never want to miss the pleasant Lunavit®-feeling on your wrist or neck. In order to achieve this, each Bracelet as well as each Necklace went through at least 18 processing steps and many quality tests before you wear it.

# Beautiful things delight our soul!

Since 1994 we are the competent partner for jewellery with function. We are always searching for something special, what puts a smile on our customers face and enjoy them day by day.

Jewellery affects us quite literally. Our aim is to offer bracelets and necklaces of highest quality materials with best workmanship. Since different people have different tastes, we offer styles from sporty to elegant feminine. You can decide what you like.

We hope you have a lot of fun with our new catalogue and would be pleased to welcoming you as a satisfied customer soon.

Your best-service 24-Team

## Copper – Element of Live.

Long before Hippocrates and Paracelsus, already 4000 years ago, The old Egyptians used copper and copper chips among others for disinfecting. They mixed it with honey (propolis) for wound healing.

In ancient China, people were so convinced of the antibacterial effect of copper that they banned paper money and prescribed the use of copper money to prevent the spread of certain diseases. Even today, e. g. doorknobs in hospitals are again increasingly coated with copper since we remind us of its germicidal effect.

According to iron and zinc, copper is the third most important trace element for the organism. It stimulates the immune system and prevents inflammation. In the skin copper also promotes the sustainable crosslinking of collagen and elastin and activates enzymes, what removes old connective tissue.

ONE OF THE MOST INTERESTING GOLFERS WORLDWIDE WEARS FOR YEARS BRACELETS OF SABONA AND LUNAVIT. MIGUEL ÁNGEL JIMÉNEZ KEEPS WITH 22 TOURNAMENT-VICTORIES AMONG OTHERS THE RECORD AS THE OLDEST WINNER ON THE EUROPEAN TOUR AND AS THE YOUNGEST WINNER ON THE CHAMPIONS TOUR.

## Copper Bangle Harmony.

The exclusive timeless design of Lunavit® Copper and Magnetic Bangles adorns and protects your wrist.

Up to five different materials of high quality are processed in each of these innovative copper bangles. Of course the main component is pure copper. Additionally integrated are two powerful SmCo magnets with 2000 Gauss, two pure germanium stones (99.9%) and two tourmaline inserts.

Millions of customers all over the world believe in their copper magnetic bracelet and they wouldn't be without it.

We have not invented the copper bangle, but optimized with all our knowledge. That made it to a familiar sight in professional and amateur sport.

### HARMONY SLIM Copper Bangle

Pure copper with each two tourmaline inserts, two SmCo magnets à 2000 Gauss and two germanium stones Ge32.

## Powered by Design.

Lunavit® Bracelet series combines for the first time magnets and germanium. The special highlight of this innovative development is the fascinating new component germanium.

The natural effect of Lunavit® wristbands is based on valuable properties:

- they contain 99.996% pure germanium Ge32,
- they are magnetic.

## Powerful combination of special components.

Lunavit® creates a connection between inner and outer beauty: Vitality for a beautiful appearance and a special design for the perfect finish of every fashion look.

Lunavit® Bracelets are more than just a trendy elegant highlight for your neck or wrist. They are characterised by the added value of the magnetic force and a pleasant feeling on the skin.

### **Lunavit®-Bracelets contain magnets.**

Each bracelet contains in its decorative clasp/face plate two powerful magnets with at least 0.2 Tesla strength, polarized on bio-north.

### **Lunavit®-Bracelets contain tourmaline and ceramic.**

Carbonized titanium, tourmaline and ceramic processed into fine powder, are in a complicated process incorporated in allergen-free silicone. This special material-combination ensures lasting dimensional stability of the bands.

### **Lunavit®-Bracelets contain germanium Ge32.**

Germanium is a little-known chemical element. It is a semi-metallic trace element, discovered in 1886 by the German scientist Clemens Winkler. Germanium exists in many plants, such as ginseng and garlic. In Asia, the effect of germanium is closely studied.

# Ceramic Bracelets with real Jade!

Subtly shimmering ceramic links are in timeless classic design composed into simple elegance. Set and joined by ultralight titanium they caress your wrist and make the band to a visual and haptic experience in a class of its own. But the added value is hidden integrated on the skin-facing side of the bracelet: three different inserts of jade, magnets and germanium.

## Real Jade Stones

For thousands of years to the present day in almost all cultures jade is said to have special beneficial properties and mystical effects. In Asia jade is also considered as »Stone of Heaven« and is closely related to the »Protection Meaning Dragon«. Convince yourself how pleasantly warm and soft jade feels on your skin – you will not want to miss!

## Power Neodymium-Magnets of 2000 Gauss each

For over 2,000 years magnets are traditionally used in China to bring with their statically constant strength the meridians in an individual balance.

## Germanium Stones Ge32

Germanium exists in many plants, such as ginseng and garlic. In Asia, especially in Japan, the effect of germanium is being more closely studied by several scientists and universities.

The ceramic bracelets of the Olymp Jade series are high-strength, scratch-resistant and light as a feather.

Each Olymp Jade Bracelet contains a removable link to adjust the length individually.

The number of inserts depends on the length or size of the bracelet.

**OLYMP JADE**  
**Ceramic-Link Bracelet**

Zirconia ceramic links set in ultra-light titanium TA2. Contains at least: five high-purity jade stones, four neodymium magnets à 2000 Gauss as well as four germanium stones Ge32.
