NEU: Best Track Visible Touch Edition 2

If a putting mat comes into consideration – then only this one!

The Best Track Putting Mat Edition 2 was developed by leading specialists and has been awarded several times.

GolfTime Journal
Hot Product Award

Handling is both simple and ingenious:

Only brush with the enclosed eraser rod the mat in one direction. This eliminates all putting tracks in one direction. Now you can play the ball against the direction and you will have a detailed recording of your putt line.

Now you can see whether your putter has played the ball left or right in the moment of impact. The Best Track Putting Mat Edition 2 already makes minimal deviations visible.

To play in the other direction simply brush in the corresponding opposite direction and put the putting cup in the new place.

More than 25,000 satisfied German users practice even now on the original Best Track Putting Mat.

4 different Speeds

Due to the special fibers at the surface of the mat and the included special mat wiper (eraser rod) you can train up to four different speeds as 12.5/10.5/10.2/8.0 feet. In addition to the extremely high quality of the putting carpet and the fantastic length the special highlight of this golf mat is the visibility of your played putts.

The new Best Track Putting Mat Edition 2 has special features that did not exist previously in the market.

You don't need electricity. The mat can be used in only 30 seconds and is immediately laid out perfectly. The stowing of the mat is even very simple.

- Extra-long putting carpet: 3.00 m x 50 cm.
- A real putting carpet, no artificial grass.
- Center line for better orientation.
- 5 markings (each 50 cm) in order to determine a precisely distance.
- A freely positionable putting hole to increase the level of difficulty.
- A stopping device with velcro fastening for too long putts.
- Allows to train four different speeds.
- An eraser rod for smoothing and cleaning the visible lines of the ball on the mat.
- On the »Slow« (normal green speeds) side, the distance lines are recorded 1:2 to control the pendulum motion during your backswing and swing.
- On the »Fast« (tournament green speeds) side, the distance lines are recorded 1:1.5 to control the pendulum motion during your backswing and swing.

Break training

Professional training

You can increase the difficulty of the mat with a simulated barrier (e. g. take the eraser rod or the 3 foam wedges) and simply put these parts under the mat and you will have different barriers on the way to the hole.

On our website you will find videos with many interesting possibilities for your putt training. Let yourself be inspired!

Putting³

With Best Track Putting Mats in plus size you can train absolutely realistic speeds, long-drawn breaks, small waves, different distances and four different green speeds. Summer and winter, at home or in the office. With this premium mat putting is never boring.

Putting Cup

Best Putting Cup. For the first time, you can putt perfectly realistic at home, in the office or even in the garden. The Best Hole Cup simulates the resistance of the hole edge very similar to a real hole on the green. The ball lips out sidewise or runs over the hole when the ball is putt too quickly.

Product Features: The Best Putting Cup made from silicone very realistically simulates the resistance of a normal hole edge. It can be placed on any putting mat as well as on all Best Track Putting Mats to simulate a wide variety of training situations anywhere (such as on felt, tile, carpet, grass, wood floors). A top training tool to improve putting.

Best Track Infinity

Developed in cooperation with leading experts and tour professionals.

The Infinity Golf Trainings Mat is ideal for a professional putt-training, that's really fun. Even a short daily exercise on this Putting Mat will improve your putts significantly. Whether you want to work professionally with the putting mat on your putting or playing a small putting tournament - this golf mat will inspire and enjoy you.

Fast Green: 12.5 feet / 3,81 m

Slow Green: 8 feet / 2,43 m

This high-quality golf training mat indicates special features that are unique on the market:

- Extra long putting mat (50 cm x 270 cm), no synthetic turf.
- Specially designed base, can be tilted up to 20° left or right, reproducible by the built-in spirit-level.

- Ball will return automatically sideways.
- Printed marks at intervals of 60 cm and a center line for control of position and distance.
- Two speeds (fast and slow) for a realistic playing experience.
- The exact course of the putts is visible due to the high-tech carpet fiber, can be neutralized in no time with the included mat wiper.

The handling is as simple as genius:

- No power connection needed.
- Brush the carpet with the mat wiper in one direction, putt in the opposite direction for a detailed recording of your putts.
- It can be seen immediately if you hit the ball in the Sweet-spot the putter twisted or hit the ball but unaccompanied.
- Two putting holes (for uphill or downhill simulation) and various training scenarios, with the supplied hole inserts you can increase the difficulty.
- Non-slip coating on the bottom of the mat provides a safe lie without slipping and also rolling in and out without buckling.

Best Track Putting Plate

The trendsetting and innovative »3 in 1« training aid helps you to reduce your golf score in the shortest possible time.

With the Best Track Putting Plate you can increase the precision of your putts as simple as effective, because it helps you to align exactly in the target direction.

The putter line shows the exact square position of your putter and allows you to align parallel to the finish line. Through the integrated putt mirror with the eye-watch, you have immediately a precise control, that your left eye (or right) is right above the ball.

The 13 cm wide guide rail, wide enough for all conventional putters, guarantees to commute parallel to the finish line. Distance markers help to find the right putt timing in your pendulum movement.

In the Best Track Putting Plate you can train your back swing distance in 5-cm-steps (10/15/20/25). The same also applies to the back swing distance (10/15/20/25/30).

NEW!

The perfect addition to the Best Track-Putting Mat for an effective and professional indoor training.

Combine Best Track Putting Plate and putting mat and you can train entirely realistic by the many different speeds and breaks. No matter where, at home or in the office. You can use the Best Track Putting Plate also on the putting green. It is a great support for each playing/teaching pro as well as for all amateur golfers, to reduce the number of putts to a minimum.

Facts

- Strengthen of your pre-putt routine You go more consciously and more safely to the green.
- Integrated alignment aid: Putt-mirror with eye-watch.
- Perfect square-position of your putter by the finish line.
- Parallel swing guaranteed.
- High-quality, stable processing.

- Cork Tree Putter Grip:**
- Waterproof
 - Antibacterial
 - Biodegradable and environmentally friendly
 - Low conductivity of vibration
 - Extremely elastic
 - Resistant to dust and dirt
 - Available in colour: Black, Red, Blue, Pink

This innovative new putter grip is made of a unique light-weight cork material and promotes stable putts. The Cork Tree Putter Grip has a Tour Taper grip shape. Many Tour Players like Erni Els, Andy Sullivan and China's #1 Little Liang Chong rely already on the original Cork Tree putter grips.

Cork Tree Putter Grip

A good feeling when putting not only depends solely on the feedback of the clubface at the moment of impact. The handle of your putter has an enormous effect on the desired pendulum movement on impact, as this ensures the correct tension of the upper part of the body. You can carry out your putt, even when your hands are sweaty. The pleasant cork material dries quickly, retains its shape and gives you grip safety. The excellent haptic prevents discomfort in your hands and arms, gives you the confidence for a safe putt.

The Cork Putter Grip carries the embroidered Cork Tree signature branding and has hand stitched seams. It is easy to clean. Use a clean soft damp cotton cloth.

Convince yourself of this unique putter grip!

Best Track Swing Release Trainer

An innovatively manufactured product that allows you to acquire correct swing poses by accurately instructing impact and finishing using length and sound in swing.

Acoustic feedback

The Best Track Swing Release Trainer is designed to identify the beginning of swing, impact and follow swing through length and sound. This helps you practice a perfect swing trajectory by making a sound (click) from the end of the head in accurate impact and by making another sound (clack) as the head returns when making a correct finishing. You may correct your swing postures in a short period of time by repeating your swing practice.

Best Track Swing Release Trainer

Material: Stainless steel, rubber, EVA
Length: basic 50.5cm,
when lengthened 70cm
Weight: 580g

69.95 Euro

- 5 Follow through

This is a new concept for a portable swing tool that doubles the swing effect by lengthening the shaft by 1.5 times.

Jonathan Taylor Fellow of the English PGA and G1 Class Professional of the German PGA.
www.swing-simply.com

- The shaft gets longer by about 1.5 times in swing, improving the swing effect.
- You may acquire the swing tempo by repeating the swing training (forming a flexible finish posture.)
- This is equipped with a grip corrector to make a correct grip and correct your swing poses.
- This makes two smacking sounds to identify the correct impact and finishing.
- This is a small portable swing tool for indoor practice.
- You may take the optimal swing poses and maintain muscular power after 20-30 times of swing trainings before rounding the golf course.

Tomahawk Neo Tee and Aero Spark Tee were awarded 2006 in Japan with the Good Design Award.

New: Daiya Tees

Tomahawk Neo

The perfect Tee for hard ground and putting mats.

The Daiya Aero Spark Tee and the Tomahawk Neo Tee are great all year tees even for cold weather, frozen grounds as well as for indoor training on golf mats. The flexible body allows for tee to stay on top of the ground without having to push into the ground.

Features:

- Free-standing tee has much less resistance on impact for easy follow through.
- Long tee can be trimmed from maximum ball height of 1-5/8 inch to your favorite height for large head clubs.
- Short tee height can be either 13 mm or 6 mm by placing face up or down.
- Free-standing tee is easy to use on hard, frozen or artificial grass tees.

190103 **Daiya Tomahawk Neo Tee**

3 long tees (41 mm) and 6 short tees (13 mm / 6 mm).

10,95 Euro

GolfAero Spark

This high performance tee minimizes friction and ball spin.

- The ball will fly further and straighter
- The tees stay in the same place – no longer looking for your tees.
- Reduces ball spin by 20%.
- Conforms with USGA, R&A rules.

190104
Daiya Aero Spark Tee

3 flexible tees,
total length 84 mm.

9,95 Euro

Stop Stooping!

Never bend down again because of a golf ball! Give your joints, back, hip and knees a break.

The Nickel Ball Pick Up is not only designed to merge with the putter grip and to be extremely stylish. It also convinces by outmost stability and suits on every standard putter grip. And in every golf bag, if you know what we mean ... Besides, this Ball Pick Up can be fixed quite easily – without the need to drill a hole – with three screws.

Handling Nickel Ball Pick Up is very easy, too. It is flipped open with the thumb like a lighter and can be closed again as simply with the hand. Now there is no more reason to bend down and stress your back just in order to get your golf ball out of the hole.
